OKLAHOMA GOVERNOR USES FISTS ON OIL MAN

Western Executive Strikes At Oil Producer When He Refuses To Shake Hands

SEVENTY-EIGHT EXECUTIONS TAKEN PLACE AT OHIO PEN

COLUMBUS, O., March 3.—(By the Associated Press)—Deaths for the third and fourth times within 48 hours early this morning invaded the little chamber at the penitentiary, where acts of "greatest sinners" against society are justified by the state of Ohio, when John Burke, 23, of Toledo, and Leroy Tyler, 34, negro, of Youngstown, murderers, were executed in the electric chair.

Burke Gazed Helplessly

Burke, also known as McGuire, who was first to die, was the seventy-seventh condemned man to enter the death chamber. He gazed helplessly into the faces of those who were permitted by law to see him die. Father Kelly, the prison chaplain, accompanied him and directed him to the chair. In his hand he carried a small crucifix, which he kissed before the black cap was adjusted over his face, as headlamps were probably a prayer, played on his lips. Three applications of current were necessary before he was pronounced dead at 12:12 a. m.

Accompanied by Chaplain T. O. Ford and Major Walter Collins, of the Volunteer Prison League, Tyler entered the chamber a few minutes later. He smiled sadly and said, "where is the warden?" Warden Thomas stepped forward. Tyler then asked permission to make a statement. His request granted, he said:

Claimed He's Innocent

"When I leave this world I go to face my Maker, but the man who is responsible for the death of Myrtle Williams—I leave him to his own election and God. I have no malice to no man. Good luck to you all. God bless you all."

He was pronounced dead at 12:21. But one application of current was necessary.

Burke was charged and convicted of having fired the shots which killed Augustus Long and Lewis Schneider, railroad detectives, slain while guarding \$8,000 belonging to the New York Central Railroad, which was being taken from the railroad station to a bank in Toledo, January 17, 1921.

Two others were convicted of having taken part in the hold-up. Royce Richardson, negro, was executed last summer, and Edward Foley is serving a term of life imprisonment in the penitentiary here. Frank Seward, a fourth member of the bandit gang, committed suicide in a western city when he was about to be captured.

Pathetic Parting

Burke's 65-year-old mother, Mrs. Margaret Surpise, of Toledo, visited him yesterday. He told her he was innocent of the crime for which he was convicted. Mrs. Thompson, wife of the warden, said their parting was the most pathetic she had ever witnessed at the institution.

Tyler escaped from Youngstown after he killed 15-year-old Myrtle Williams, a negro girl, who was employed at the same hotel with him in Youngstown. He surrendered in Mississippi and was taken to Youngstown where he was tried and convicted. He slashed her throat with a knife.

Mrs. Thompson, Tyler made two requests. Yesterday he gave her his \$2 dollar with which to purchase a suit to be placed on his body. Several days ago he asked her to see his body was buried in his overalls, army uniform. She promised to see that both requests were fulfilled. So far as is known he has no relatives.

YOUNGSTOWN, O., March 3.—(By the Associated Press)—Residents of Youngstown may now order the laundry wagon by wireless. The advertisement of a laundry and cleaning company in a new telephone directory issued today gives not only the telephone number of the laundry, but also a radio number to which it will reply.

PROVINCES OF INDIA ARE SEETHING WITH UNREST

LONDON, March 3.—(By the Associated Press)—Scattering reports to the newspapers indicate that the situation in India is causing increasing anxiety to the authorities, particularly in the Punjab and the united provinces of Bengal.

There is said to be danger in Bengal that the members of the old revolutionary party will take control of the political movement out of the hands of the Nationalist congress party, owing to the anger of the extremists at the postponement of civil disobedience.

The Daily Mail says that the Prince of Wales has abandoned his intention to visit Amritsar, where it is recalled troops fired on agitators in April, 1919, killing 380 persons. The reason for the alteration in the prince's plans is not stated.

DONAHEY ENTERS GOVERNORSHIP RACE, PLEDGES TAX CUTS AND ECONOMY

COLUMBUS, O., March 3.—(By the Associated Press)—Announcing himself as a candidate for the Democratic nomination for governor, former State Auditor A. V. Donahey, in a statement issued last night, pledged himself to tax reduction and economical expenditures of taxes raised and charged Governor Davis with not having kept his campaign promise to cut the cost of government "hundreds of thousands of dollars."

Donahey, who was the Democratic nominee in 1920, in his announcement, criticized the enactment of the reorganization code and laments the action of the supreme court in upholding it as an emergency. He declared that he stands for the "unframed right of referendum" and that he will "resist with all the power at my command the enactment of any legislation as an emergency unless the emergency actually exists."

The four main planks of his platform, Donahey said are "lower taxes, economy, constitutional government and common honesty."

Referring to acts of the present administration, he said:

"The recent scandals affecting the administration of the highway and purchasing departments of the state are a shame and a reproach. Every particle of government waste must be stopped and the government, state and local, must deny itself and apply the same rigid economy that private business has been compelled to resort to, or the burden will become unbearable."

Governor Davis has announced March 18 as the date when he will make known his intentions whether he will run again or not.

Donahey's Statement

Mr. Donahey's statement in part follows:

"I hereby announce my candidacy on the Democratic ticket for Governor of Ohio, subject to the August Primary.

After consulting with leading citizens of the state and conferring with many of the rank and file of my own party, I am convinced that a large proportion of the citizens of Ohio feel that I should make the race again. It shall be my chief endeavor to prove worthy of this confidence."

"The weakness of government is in its administration. The most scientifically conceived laws placed in the hands of incompetent officers for administration will fail. Economy in government will not alone come through the law, but it will."

Pandemonium In Crowded Court Corridors

OKMULGEE, OKLA., March 3.—(By the Associated Press)—Resenting an oath alleged to have been directed at him by James C. Lyons, an oil man of Okmulgee, Governor J. B. A. Robertson, of Oklahoma, this morning engaged in a fist encounter with Lyons in the county court house here, which was crowded with lawyer, court officials and spectators. A half dozen or so blows were exchanged by the two men before they were separated. Neither bears any marks of the encounter.

The governor had just concluded a conference with James Hepburn, county attorney, relative to the governor appearing before the grand jury to testify in connection with the failure of the Bank of Commerce of Okmulgee, which the grand jury is investigating and with which the name of the governor has been linked.

As the governor walked from the private office of Hepburn into the outer office Mr. Hepburn turned to W. H. Crume, of this city and asked him to "introduce the governor to the boys."

The first man Crume met was Lyons, who is president of the Lyons Petroleum Co., a director of the Okmulgee State Bank, when it was merged with the Bank of Commerce, and president of the depositors' organization formed after the failure of the Bank of Commerce, November 2, last.

Turning, Mr. Crume said, "I want you to meet the governor, Mr. Lyons."

"I wouldn't shake hands with the..." said Lyons with an oath according to Crume, and according to Mr. Lyons' admission later.

The governor then attempted to strike at Lyons with his right fist, according to Crume, which both the governor and Lyons agreed to accept. First accounts stated that Lyons struck the first blow. State Senator G. R. Horner, whose wife was standing nearby, intercepted the blow, but in a moment the state executive and the oil man were exchanging blows and struggling to free themselves from the grasp of spectators who intervened.

Double Murderer, Sentenced To Hang Today, Continues In State Of Self-Imposed Catalepsy

Two others were convicted of having taken part in the hold-up. Royce Richardson, negro, was executed last summer, and Edward Foley is serving a term of life imprisonment in the penitentiary here. Frank Seward, a fourth member of the bandit gang, committed suicide in a western city when he was about to be captured.

Two Scows Full Of Popular Brand Whiskey Are Seized

NEW YORK, March 3.—(By the Associated Press)—Two scows full of bottled whiskey of a brand popular in pre-Volsied days were seized today in West Chester creek and the seven men composing the crews placed under arrest. Inspector George C. Lichers declared his belief that the liquor had been smuggled on steamships from Cuba.

Three patrol wagons, working in relays, transported the several thousand bottles in burlap bags to the West Chester police station.

Trucks lumbering down to the wharf at an early hour and an unusual number of lights on the scows aroused police suspicions and led to the seizure.

Old Fashion Religion Helped Check Crime

CHICAGO, March 3.—(By the Associated Press)—The old American homestead with its training in religion was the finest and best factor in keeping down crime this country ever has known, Judge Kiekham, chief justice of the criminal court, said in an address before the Chicago Medical Society last night.

"As an institution it is fast falling into decay," he continued, "with a resultant increase in crime."

Another reason given by Judge Kiekham for the increase in crime is that "the American public is losing faith in God."

"In recent statistics," he said, "it was revealed that during the questioning of men for the draft two out of every three boasted they did not attend church. Such a statement is appalling."

Head Of Ireland Prison Board Killed In Dublin

BELFAST, March 3.—(By the Associated Press)—Max S. Green, chairman of the Irish prison board, was shot and killed in Dublin today, a Dublin message announces. He was a son-in-law of the late John Redmond, the Irish Nationalist leader.

The shooting of Mr. Green occurred during a chase following a robbery. An official of the ministry of pensions carrying a considerable sum of money was helped up by armed men who took from him a bag containing 500 pounds and ran away with it. The police gave chase and captured the robber, who had the money in his possession.

Another of the fleeing men fired on his pursuers, and it was then that Green was struck by a bullet and killed. Another man was wounded at the same time.

Abandon Plans To Hold Motion Picture Actor

LOS ANGELES, CAL., March 3.—(By the Associated Press)—Unless additional evidence against him is obtained, the six men arrested here Tuesday on information purporting to connect them with the murder of William Desmond Taylor, film director, will be released today, according to the police.

Their release, it was said, would mean the police had abandoned plans to arrest a seventh man, a motion picture actor, a possibility they announced after a long questioning of Mrs. John Rupp, housekeeper for the men now in custody, who apprised the detectives of her belief they were involved in the Taylor murder. If the six men are eliminated from suspicion, the police said, they again will have before them only the problem of trying to locate Edward F. Sands, missing former intelligence secretary to Taylor.

FEW BROKEN HEADS THE SOUVENIRS OF ATTEMPT TO REOPEN COTTON MILLS

HOPE, R. I., March 3.—(By the Associated Press)—A few broken heads remained today as souvenirs of yesterday's first attempt to reopen cotton mills closed by the strike nearly six weeks ago. Meanwhile, the results of the attempt were debated throughout the Pawtucket and Blackstone valleys, where nearly 17,000 textile workers are out.

The experiment was decided upon when mediation broke down through refusal of both mill owners and strikers to submit their differences to the chairman of the state board of mediation and conciliation. Manufacturers maintained that a large percentage of the operatives desired to work at the 20 per cent reduction in wages and the increased working schedule offered them. Strike leaders declared that the workers were a unit in refusing the terms. It was decided to open one plant as a test.

The Hope Company's mills were chosen mainly on ethnic grounds. The population of this village runs largely to the "old line" mill operatives, French and English speaking, rather than other parts of the Pawtucket valley. Wednesday night operatives of the Hope mills made a house to house canvass inviting operatives to report for duty Thursday morning. At half past six workers began to drift towards the mills and were greeted with jeers and verbal abuse by pickets. Militia moved in to form lines paralleling the picketers.

Then for the first time in weeks the mill whistle sounded calling the operatives to work. Twenty-four in all out of a working force of 200 run the gauntlet of pickets to get to the plant. At noon the workers had to pass through the same hostile line, then augmented. One of them, Arthur Rathburn, was knocked down and kicked by a dozen men. A soldier fired in the air and the assailants dispersed, but Rathburn identified the one who had struck him first and the man was arrested.

When the mill whistle blew after lunch hour, only six reported.

Banks Ordered To Inform State Department Of Loans To Be Made To Foreign Parties

WASHINGTON, D. C., March 3.—(By the Associated Press)—Notice was issued today by the state department that the government expects American banks to advise it fully of the details of foreign loans, with other governments or municipalities abroad before negotiation of such loans are concluded.

Nature Of Warning

The department in its notice, which was in the nature of a warning, said the desirability of co-operation in such loans, which was explained to the banking interests at a conference last summer between President Harding and certain members of the cabinet and representatives of American investment banks, did not seem sufficiently well understood in banking and investment circles.

"The rotation of foreign bond issues in the American market," the state department said "is assuming an increasing importance and an account of the bearing of such operations upon the proper conduct of affairs, it is hoped that American concerns that contemplate making foreign loans will inform the department of state in due time of the essential facts and of subsequent developments of importance."

Put Up To Bankers

Responsibility for furnishing the information desired was put squarely up to the bankers by the department and it was said they were fully competent to determine what information should be supplied and when it should be furnished.

Officials explained that while there is no law compelling bankers to furnish such advance information to the government, the department believed that in view of the possible

N. & W. Planning To Take Up Athletics

In furtherance of a plan for promoting athletics among the men of the N. & W. system a big meeting of the railroad employees will be held in the lobby of the R. R. Y. M. C. A. at the Terminal next Thursday evening. The meeting will be called to order promptly at seven o'clock and Dr. H. F. Kallenberg of New York will be present to explain and outline the athletic program.

Dr. Kallenberg comes here under the direction of A. C. Needles, operating vice president of the road, who is desirous to have the men of the various divisions compete in athletic contests, including baseball and other sports. The proposed athletic program will be formulated after the system used on the Pennsylvania railroad with much success.

Col. W. S. Battle, general claim agent of the road, and other officials, including H. C. Weller and R. G. Henley, local superintendent and master mechanic, respectively, have voiced the opinion that it will be a great thing for the employees to participate in outdoor sports and are boosting the movement with much vigor.

Local Legion Seeks To Have Investment Schemes Probed

Two important resolutions, one endorsing a night school for Portsmouth and the other asking that a committee be appointed by the C. of C. to investigate investment schemes, were passed by James Dickey Post, American Legion at the regular meeting Thursday night. These two things are of paramount interest and are expected to bring about much good in the city.

The resolutions passed were as follows: Whereas: The city of Portsmouth maintains a large and modern high school building, and whereas, The class rooms of this building are available for use during the evening hours and whereas, The population of Portsmouth, and the needs of her citizens warrant the opportunity of education, other than that now offered, and whereas, Such an opportunity will promote the interests of the public and disseminate Americanism, Be it resolved, we, the members of the James Dickey Post, Number 23, of the American Legion, Department of Ohio, endorse the institution of a night school in Portsmouth, Ohio and invite the sympathy, cooperation and influence of the local Board of Education, the press, the Chamber of Commerce, Rotary and Kiwanis clubs and the various women's organizations in the attainment of this project.

Be it further resolved, that a committee be appointed to investigate investment schemes, and all schemes now existing in the city of Portsmouth and, whereas, Several of these schemes or plans have not received the sanction or the investigation of the men skilled in finance, and whereas, The general public has no adequate means of ascertaining the true worth of the schemes or plans, Be it resolved, we, the members of the James Dickey Post, Number 23, of the American Legion, Department of Ohio, earnestly request the Chamber of Commerce of Portsmouth to conduct a thorough investigation of any and all schemes now existing in the city of Portsmouth and to maintain a small and efficient permanent committee of competent men for this purpose.

These resolutions will be printed and the Legion will back them up with all the power the members have in an effort to have the good effect of the two suggestions felt in this city.

Plans were also discussed for a dance that will be held shortly after Easter, the dance to be in honor of the many young women who have their time to the Legion while state funds blanks were filled out for 1700 cases of men in this country. These young women received money, thanks for their hard work and it is the intention of the local Post to honor them with this dance.

Five new members were admitted to the local Post last night. Some members have not yet sent in their 1922 dues. Members are urged to pay their dues at once.

Plans were also discussed for a big social meeting that will be held in two weeks. This entertainment and social good time will be in charge of a committee headed by Harold Clayton.

NATIONAL BISCUIT COMPANY

(Special To Times)
WAVERLY, O., Mar. 3.—The case of the State of Ohio vs. George Bateman, charged with the possession of intoxicating liquor came up for trial Thursday in Mayor George B. Smith's court. The defendant entered a plea of guilty and was fined \$250 and costs, which amounted to \$275.00.

The trial today was the outcome of the raid which was made last week by Constable Louis Robinson, and Deputy Marshals Elmer Farmer and Chas. Knapp of Waverly. At that time the officers entered the first floor, a pool room and soft drink establishment at Pikeon, with a search warrant and came away with pieces of a broken bottle as evidence. The Rest Inn is owned by Mayor Grant Bateman of Pikeon and is run by himself and his son George. At that time an affidavit was sworn out against George and Grant Bateman, charging them with possessing, furnishing and selling intoxicating liquor. When arraigned they pled not guilty and were released under a recognizance bond.

When the case came up for trial the former charges had been dropped and a new affidavit substituted, charging George Bateman alone with possessing intoxicating liquor.

A large crowd gathered early, many from Pikeon being present, completely filling the small room used for the mayor's office. Before the mayor arrived Prosecuting Attorney Levi B. Moore and Attorney Thomas B. Jarvis of the anti-saloon league decided to have the case heard in the Court House across the street. The crowd hurriedly made the change and by the time the mayor arrived all seats were taken.

The can containing the broken bottle was placed upon the table as exhibit A, all the attorneys taking a sniff at it. Attorney Edgar Miller of Portsmouth, counsel for the defense, was seen to leave the room for several consultations with Grant and George Bateman. Finally Mr. Miller came before the court and announced that they would waive the reading of the affidavit and enter a plea of guilty. Mr. Miller asked the lenience of the court and stated that the liquor did not belong to the defendant but had been left there by someone else.

Mayor Smith asked the defendant if he had anything to say and upon receiving a negative answer announced that the fine would be \$250 and costs.

Attorney Jarvis then arose and addressed the spectators and in a fifteen minute speech urged the necessity of upholding the constitution and the laws and particularly asked everyone to obey the eighteenth amendment the same as any other law. He further said if he was called down to Pike county again he would exert his influence to give prohibition offenders the maximum penalty.

The more severe, though very modish tailcoats of twills and tricootines present vivacious color touches in facings and embroidery. There's such notable variety that choosing becomes simply a matter of selection best adapted to one's personality and individual preference.

If you're free from constipation show this to some sufferer!

One of the greatest benefits to humanity that has been made available to every man, woman and child in America is Kellogg's Bran, cooked and krumbled. Kellogg's Bran will relieve constipation permanently if it is eaten regularly. If people of this nation generally would eat Kellogg's Bran nine-tenths of all sickness would be eliminated.

Physicians endorse Kellogg's Bran, cooked and krumbled, for constipation relieved through proper food. We guarantee Kellogg's Bran will relieve constipation if at least two tablespoonfuls are eaten daily. We advise as much as necessary for chronic cases.

Kellogg's Bran acts as a sweeper, cleansing and purifying. But it is not

a "remedy"; rather a nature food! Unlike pills and cathartics, which are not only irritating to the delicate intestinal tract, and afford but temporary relief at best—bran is not habit-forming. Effects of pills and cathartics wear off and it is necessary for the sufferer to find some new and more violent bowel agitator. Kellogg's Bran never ceases its regular work.

Kellogg's Bran at the same time will clear a pimply complexion and sweeten the breath.

Kellogg's Bran, cooked and krumbled, is one of the most delicious cereals you ever ate. Its nut-like flavor is delightful. Or sprinkle it on your favorite cereal and use it in various foods such as bran bread, muffins, pancakes, gravies, etc. Kellogg's Bran never ceases its regular work.

Get it at your grocer's.

IS YOUR CHILD SICK AND AILING

Give H. Gude's Pepto-Mangan—For Thirty Years Doctors' Favorite Tonic

Children that grow too fast, and play too hard or perhaps work too hard at school (oh, yes, some children do work hard at school) become pale and a little run-down, and then mothers and fathers become worried about them. The youngsters do not eat with their usual big appetites, and so they become thin and tire easily. There is a simple and good remedy for this. It is Gude's Pepto-Mangan, the tonic rich in a certain form of iron that is readily absorbed by the system. Gude's Pepto-Mangan will soon put the color back into the children's cheeks and give them the kind of an appetite every mother loves to see. It is sold by druggists in two forms—liquid and tablet—and is absolutely safe to give to any child. Ask your home doctor what he thinks about Gude's Pepto-Mangan. Advertisement.

Police Looking For Trio Who Tried To Rob Filling Station

A bold attempt to rob the Standard oil company's filling station at Third and Market streets was made by a trio of men about seven o'clock Thursday night, but the bandits were frightened away before they succeeded in securing the money from the cash register, which contained about thirty dollars. The police say they are camping on the trail of the men.

Herman Havocotte, the former, was alone when one of the men entered and thrusting a gun in his face the robber ordered him to "keep quiet."

According to Havocotte's story to the police, two companions of the gunman then quickly appeared and were waiting for the cash register when a machine of a patrol suddenly drove up at the pump in front of the door, which caused them to turn and dash from the place, followed closely by their pal. The hold-up men ran over Market street and disappeared in the B. & O. yards, and made good their escape, though the police scoured the city in an effort to apprehend them.

Mrs. Roy Berry Say Husband Struck Her; Police After Him

Claiming that her husband struck and knocked her down, as she was walking along Seventh street, near the Selby shoe factory Thursday night, Mrs. Alice Berry later sworn out a warrant in Municipal court for the arrest of Roy Berry, of South Portsmouth, on a charge of assault and battery.

street has been separated from her husband since last December and she claims that he constantly follows her about the streets and annoys her. Only last week she caused Berry's arrest on a similar charge and the accused was let go on that occasion with a warning. Mrs. Berry has a suit for divorce pending in Common Pleas court.

Sunday School Lesson

REV. L. C. WATTS, NEW BOSTON

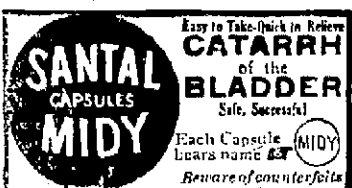

One of the most common weaknesses to which devout people are subject is the tendency to think too highly of themselves and to despise others not so fortunate. They are likely to forget that they have had

better opportunities than others, and think themselves entitled to much credit. Earliest history reveals this weakness, and it is still prevalent. Three hundred years before Christ the Hebrews suffered from it and thought that as they were devoted Jehovah worshippers, they were much better than their idol worshipping neighbors. They forgot that from Egyptian bondage to Babylonian captivity the Hebrew national sin had been idolatry. There had always been a few Jehovah worshippers, but except for brief periods of ascendancy, Jehovah worship was a struggling religion. The Babylonian captivity almost depopulated Palestine and when God wished to restore the Hebrew people He chose only those from the exiles who were devoted Jehovah worshippers. Nehemiah and Ezra led them back to Jerusalem and much joy and enthusiasm, and never again did the Hebrews worship any gods but Jehovah. They were zealous and obedient to the letter of God's law and received the rewards of obedience. When their condition had improved so that they were totally prosperous they began to feel that they were God's pets and became exalted. However there were wise men who saw the danger, and one wrote the book of Jonah to warn them. The author chose Nineveh to represent the pagan nations and Jonah to represent the Hebrews. He pictures Jonah as reluctant to carry God's message to Nineveh, because of his bigotry and national exclusiveness. Then at last he consents to go but when Nineveh repents and shares God's mercy and favor, Jonah gets peeved and jealous. Of course we know that Nineveh did not repent. The book is an allegory designed to teach the Hebrews to be humble and brotherly and free self-righteousness. How much is accomplished we cannot say, and it would matter little if we could, but we can apply the message to our own lives, and learn to be humble, love our neighbors, and be anxious to share our good things, temporal and spiritual, with those less fortunate than we.

Name Judge McCall

Municipal Court Judge Stanley McCall has been named Americanization officer by James Dickey Post, American Legion. A more qualified man would be hard to find for this important office.

On March 8 several aliens are expected to receive their citizenship papers in Common Pleas court. Judge McCall will then have an opportunity to present a suitable program of Americanization.

Twenty-five members of the Lansing, Mich., team, which is in the central league and is managed by Fred Hunter, who has hundreds of friends here, will train in Millbrook park this Spring.

The players will arrive here on April 2 and will spend 20 days getting ready for the regular season in the Central league.

In discussing his plans here with Mayor Gahagan and other officials, the coach said, Mr. Hunter says he has figured out that about \$2000 will be needed to defray the training expenses of the club. He also says that the city will be expected to contribute some of the cost. The other \$1500 will be raised in Portsmouth. Mr. Hunter's plan is to have the team stay in the hotel here, and to have the training grounds in the park. He also plans to have a practice field in the park. If You Miss This Orchestra
You Will Miss Musical Treat

Tomorrow evening at eight o'clock in the high school auditorium The Baltimore Society Orchestra will appear as an attraction on the high school lecture course. Tickets are for sale by all grade school pupils but seats must be reserved at the office of Superintendent of Schools Frank Appel in the high school building, as all seats will be reserved for this special attraction.

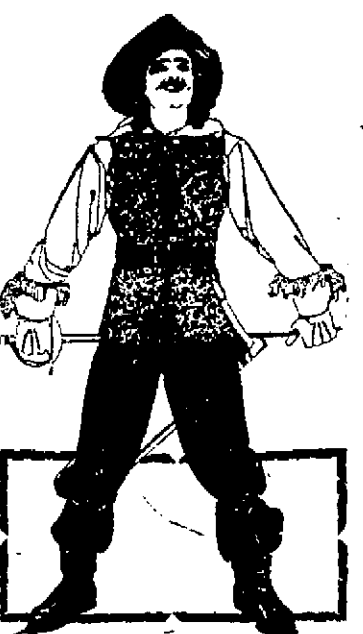

The Baltimore orchestra program has a distinctive double claim to popularity. This clever organization of fers the best in chamber music num-

bers and symphonic arrangements, and they also feature the popular orchestrations of the current season. Under the able leadership of Mr. Eugene Schweizer, the work of the Baltimore during the past season has been a signal success. On one of the large eastern Chautauque circuits they proved a veritable sensation, and as a result they have been chosen for a long transcontinental tour for the Affiliated Bureaus.

Mr. Schweizer has an unusual baritone voice, rich in quality and of big range and power. The vocal efforts with orchestral accompaniment are a delightful feature of the program. In fact the orchestra might well be called a singing orchestra for there is a refreshing novelty in the many combinations.

Leadings, vocal and instrumental solos, duets, trios, quartets, and sextets—in fact all possible arrangements for voice and instruments are used. Selections from "Merry Wives of Windsor," "Pagliacci" and some of Nevin's classical efforts are featured, as well as all the popular worthwhile lighter numbers.

There are six artists in this splendid musical organization and they give a varied program that is bound to please.

Grange News

Scioto Valley Grange met in regular session Saturday night Feb. 25. The attendance which is rapidly increasing numbered about fifty at this meeting. In laying of spring fertilizer was discussed. Delegates were appointed to attend the next Pomona meeting which will be held Saturday March 4th at Sunshine. The delegates appointed were John Woodruff, Lovena Kinder, Bessie Spriggs, Charles Haucock and Alice Woodruff. After the business was completed an interesting program was rendered. Quite a number of juvenile Grangers were present and they are getting along well with their work. They furnished several recitations for the program.

The Tom Cuts are still in the big rat drive. Both sides are working hard.

Will Investigate

W. R. Bosson of the state department of agriculture, Columbus, arrived here Thursday, and today, in company with Deputy Game Protector Frank Voorheis, will investigate the manner of disposing of dead stock in this county.

Farmers, it has been reported, after stock dies, let the body remain in the open and exposed after taking off the hide, or feeds the body to stock. This is in violation of the pure food laws of the state. The only lawful means of disposition is by burning or burying.

75% OF HOUSEWIVES
SOAK EVERYDAY
CLOTHES

What does soaking mean to you? Three out of every four housewives always loosen the dirt by letting the clothes soak before they start washing.

With the ordinary soaps, this helped a little but there was still a lot of rubbing to be done. Rinso, an entirely new kind of soap, loosens and dissolves every bit of dirt, without the slightest injury to the clothes. Soak your clothes an hour or more in Rinso and the dirt rinses right out, all but the most stubborn places and those need only a light rubbing.

Rinso is the only soap you need for the entire regular family wash. You don't need any other soap—nor any washing powder with Rinso. Women who are using it say their clothes are spotless and last longer.

Nine candidates formed the class that took degree work at the weekly meeting of the Eagles Thursday night. The degree team worked in fine style. The class included: Thomas Hulley, Stanley McCall, Jerry Rhoden, Grover Conley, Charles Eichenlaub, J. W. Ratcliff, Joseph Thompson, W. W. Adams and Fred McNeal. Another class will be taken in April 13. Walter E. Miller, Reuben Smith and Charles Doughty were presented with gifts last night for their hard work in the recent membership contest.

A nation wide campaign is being conducted by the Eagles for an old age pension, and a committee of fifteen was named last night to represent the local lodge in this campaign. Charles Snyder was appointed chairman of the dance committee.

WAVERTON, OHIO, MARCH 3.—Deputy Marshall Elmer Farmer arrested T. B. Francis and W. S. Collins of Ironton Thursday afternoon on a charge of turning a motor vehicle in the middle of a block on Market street, contrary to the village ordinance. Bullfinch tomorrow will say:
The final wool auction held by the government here Thursday will attract all of the attention. The cotton markets otherwise have been dull, whether on the easy side if anything.

The wool auction with prices per pound five per cent up, as compared with the February sale, showed, however, that there is underlying strength in the wool situation still. The wool market and the clothing market are still in sharp contrast with the weakness in raw material.

In the west buying continues to be strong, buyers being strong in the

which the market has arisen so suddenly.

Equitable Life Shows Gain

The 42nd Annual Statement of the Equitable Life Assurance Society of the U. S. gives evidence of the company's continued progress. The new insurance written in 1921 totaled \$27,193,000, exclusive of \$20,114,000 of group insurance. The outstanding insurance on December 31st had passed the \$2,800,000,000 mark. Over \$2,000,000 was paid to policyholders and beneficiaries during the year in death claims, matured endowments, dividends and annuities. The total

payments to policyholders since the organization of the Equitable in 1879 exceed \$1,450,000,000. The assets are \$655,201,000, an increase of \$28,000,000 over the previous year. The mortality rate for the year was the lowest in the entire history of the company. A large increase was made in the number of policies payable on the monthly income plan, as well as those taken to protect business interests and to provide for inheritance taxes. Over 100 per cent of the domestic death claims were paid within 24 hours after receipt of due proofs of death.

Revival Meeting Last evening Evangelist Flannery brought a powerful message from the text, Ruth 1-16-17.

The evangelist spoke of three things that Ruth gave.

She gave up her native land. She gave up all her blood relatives. She gave up her idolatry.

She received in return a place in Israel. God's country. She became the wife of Boaz, one of the leading men of Israel. She became a worshipper of the true God. Her name was placed at the head of the eighth book of the Bible. She became the grandmother of King David. She was put in line with the coming Saviour.

The greatest and last, though, Ruth giving up these three things gave her a home in Heaven.

It pays to go God's way. Everything of this old world we give up to go God's way. He has something better for us. Look what Ruth gained by giving up and going with her mother-in-law.

CRIME CLUE POINTS TO NEW BOSTON

CLEVELAND, O., Mar. 3.—Cleveland detectives today were sent to New Boston, Ohio, to bring in a man who is said to have knowledge of the slaying of Louise Wolfe and Mahel Foote, Parma school teachers, some months ago.

The man is said to have either declared that he committed the crimes himself or had been holding the secret as to who did commit them.

The new development is the result of an anonymous letter received by County Prosecutor Stanton, which he turned over to the police.

When asked if he had heard of the coming of the detectives, Mayor

Newberry of New Boston, this afternoon said he had not, but probably would later in the day. "I will be ready to co-operate with them in every respect and if there is any man or men in New Boston, who know anything about the killing of the two popular school teachers I sincerely hope we are able to run

them down and compel them to reveal their secret." Mr. Newberry told a Times man. "The police of New Boston are also ready to do all they can to unravel the mystery."

It will be recalled that the two school teachers were waylaid while on their way home and their dead bodies were later found along the

roadside. The cruel murder thoroughly aroused all Cleveland and the police there spent many weeks making a fruitless effort to locate the cowardly murderers and learn their motive if any. The detectives have faith in the New Boston tip and mean to run it down to the last ditch.

OORAY! SCIOTOVILLE COPS FIRST GAME

FINCH BETTER

John Finch, Cincinnati, colored man injured about the head and shoulders in a fall from a C. & O. N. freight car early Thursday morning was reported as getting along nicely at Hopstead hospital Friday. He is expected to be able to leave the hospital early next week.

Athens Win

The debate in the high school auditorium this afternoon between P. H. S. and John Hancock high school of Athens resulted in a victory for the visitors, who had the negative side. The judges voted two to one for the Athenian debaters.

The Sciotoville high school team will get to play at least two games in the southern half elimination tournament at Ohio Wesleyan University for they won their first game today when they met and defeated New Dover by a score of 28 to 4.

The Sciotoville quintet is expected to make a good showing unless they are unfortunate enough to draw the best teams entered as opponents.

Closing Deal For Game Preserve

L. J. Tabor, director of agriculture, A. C. Baxter, chief of the Bureau of Fish and Game, and Chief Forester H. W. Hyatt, of Columbus, were in conference this afternoon in the office of Attorney Bannan and Bannan, First National Bank build-

ing at which conference the deal was expected to be closed for the 1,500 acres of hill land on the West Side that will be used for a game preserve.

At the conference besides the three men from Columbus were Attorney

Henry T. Bannan, Deputy Game Protector Voorhees and others interested in the land that is included in the purchase.

The land is being purchased from Simon Labold, Edward Cunningham, F. W. Monton and the Peckles es-

tate. The hill lands are between Carey's Run and Turkey Creek and extends north to Bear Creek.

The deal for the game preserve lands has been under consideration by the state for sometime. Should the

deal go through as contemplated this afternoon Scioto county will have one of the best game preserves in the state.

Wild game including deer and turkeys are to be turned loose on the preserve in addition to other game.

BILLY SUNDAY PEEVED; MAY CLOSE MEETINGS

The following from the Huntington Herald Dispatch will be read with considerable interest:

CHARLESTON, W. Va., Mar. 3.—Rumors that Billy Sunday had seriously considered cancelling his campaign at Charleston because of a lack of co-operation on the part of the churches was confirmed today by the evangelist himself who in making announcements preliminary to his sermon called attention to the fact that there would be services in the various churches next Sunday morning and that he would preach in the tabernacle only Sunday afternoon and night. "I don't often go to a town where I don't do all the

preaching," he said, "I telegraphed Rapp (his business manager) to cancel the date here when I found that the churches insisted on having Sunday morning services. Finally I made the concession, with the un-

derstanding that the Sunday morning services should continue only to budget Sundays. I made the concession, I am here, I never went back on my word yet, I say this to show

that I am willing to lay my cards on the table. I think I have learned how to conduct these campaigns in my twenty-six years experience. Experience is much ahead of mere theory."

BONUS BILL COMPLETED

WASHINGTON, D. C., March 3.—(By the Associated Press)—The working out of details of the compromise soldiers' bonus bill was completed today by the special subcommittee of the house ways and means

committee Republicans and it was announced that the re-drafted measure would be presented to the entire committee membership, Republicans and Democrats, next Tuesday.

The perfected plan will be submitted to the majority membership Monday. Chairman Fordney and other members said they did not think it would be necessary to present the bill to a Republican conference, but added that the measure probably would not be reported to the house for ten days or two weeks so as to give members ample time in which to study the compromise.

One important change in the original adjusted service certificate bill was made today and members estimated that this would reduce the total ultimate cost of the bonus by

perhaps as much as half a billion dollars. Under this change the face value of the certificate would be the sum of the adjusted service pay plus 25 per cent, instead of 40 per cent, as originally proposed, plus interest at the rate of 4 1/2 per cent a year, compounded annually.

The maximum interest rates which banks could charge in making loans to the holders of the certificates was fixed at the amount of the refund rate charged by the region federal reserve bank plus 2 per cent. Under a new provision if a service man defaulted in payments to the bank and the bank made demand on the government at the end of three years for the amount due the government, instead of taking over and carrying the loan, would cash

the certificate at its then value and would pay to the service man the difference of that value and the amount due to the bank. The value at the end of three years would be 85 per cent of the adjusted service pay plus interest at the rate of 4 1/2 per cent compounded annually from the date of issue.

If all the service men took certificates and held them until maturity, 20 years after their issue, it was estimated that the cost of the bonus to the government would be approximately \$4,000,000,000. It was figured, however, that through borrowings and forfeitures this cost would be reduced by something like a billion dollars.

OBITUARY

Paul Vernon McClure

Paul Vernon, month old son of Mr. and Mrs. Preston McClure of the Scioto Trail, died Friday morning. The funeral services will be held Sunday with interment in the Lucasville cemetery.

LOCAL NEWS

Clifford L. Skinner, 24, magazine solicitor, and his companion, Anna DeFord, 22, arrested yesterday by the county officers, were fined by Judge McCall in Municipal court Friday under their plea of guilty to statutory charges.

Both were ordered held to appear as witnesses in the delinquency cases of Virginia Kelly, 16 and E. C. Peck, also magazine solicitor, which will come up for hearing before Judge Gilliland in probate court Saturday morning. Peck is accused of contributing to the delinquency of the Kelly girl by inducing her to leave her home in Huntington and accompany him here.

Judge McCall indicated that he would suspend the fine in the case of the DeFord woman after she has testified in the other cases and sent her back home.

A high water mark in the matter of fines and costs collected has been established by Squire George Morgan, of New Boston, during the two months he has held the office.

In the month of January the revenue from this source collected by the magistrate was \$1500, and in February the sum was \$2127.00 or a total of \$3627.00 for the two months, which was equally divided between the state and Clay township as the money represented money collected as fines in liquor cases. In addition the justice paid Scioto county \$72 as fines collected in sundry minor cases.

There have been more than 1600 different varieties of potatoes, but few have been worth cultivating.

Sciotoville Draws New Dover In First
Game In Basketball Tourney At Delaware

DELAWARE, O., Mar. 3.—Seven-ty-eight basketball teams representing high schools from all over the southern portion of the state began play early this morning in the second division of the Ohio Wesleyan university basketball tournament. Elimination play will be continued

until late tonight, resumed tomorrow and the two teams remaining undefeated when play is completed will represent the southern section against two teams selected from northern Ohio a week ago. The final contests between the four teams will be played here March 11.

Originally ninety teams were entered in the competition, but with the withdrawal of twelve of these for various reasons, the total number at 78. This, however, is the largest representation that has ever participated in the divisional contests.

While it was admitted there was little upon which to base predictions, critics were pointing to Athens, Cambridge and Dayton as having excellent chances for honors. Other teams, however, whose records were not generally known, were admitted to have equally good prospects.

Drawings for the first and second rounds of play were announced last night.

Sciotoville is entered in the tournament, and in the drawing they drew New Dover as their first opponent. Results in the first round of the

SOCIETY

Thirty-five members attended the regular meeting of the Ladies' Aid Society of the Franklin Avenue Church held at the home of Mrs. Margaret Winter, Eighth street yesterday afternoon. There was no regular program or business session, and the afternoon hours were spent socially.

The assisting hostesses were Miss Mary Helt, Mrs. Clara Berthold and Mrs. Andy Rossinger. At 4:30 o'clock the guests were ushered to the dining room, where a delicious two course tea was served.

A large basket of red carnations centered the table, while streamers of shamrocks adorned the table, circling each place. Favors and place cards were in keeping with the shamrock decorations. Mrs. Anna Koller of Columbus, was an out-of-town guest.

About three hundred members attended the social and "get together" meeting held at Manly Church last night, when members of the Men's Bible Class entertained the women members of Mrs. Blazer's Sunday school class. The families of both classes also attended the session, which proved one of the most successful given by the church this winter.

The women provided the sandwiches for the supper which was served at seven o'clock, while the men provided the remainder of the menu. A program and social time followed.

Mrs. Emma Beck's Sunday school class of the Central Presbyterian church will hold a bake sale tomorrow afternoon at Levi's furniture store on Gallia street.

Mrs. Clarence Koller, of Gallia street is recovering from an acute attack of indigestion.

The Busy Bee Class of the United Brethren church will have a bake sale tomorrow morning at Voelker's dry goods store on Eleventh street.

Mr. and Mrs. And Stroud of 1322 Findlay street entertained at dinner yesterday for the pleasure of their sister, Mrs. Fred Black and sons, Olin and Brady, Tom Carver and son Harold, Mrs. John Cornwell of New Boston and Mrs. Frank Deuter of Findlay street. Following the dinner the remainder of the afternoon was spent in games and Victrola music.

The Bethany Class of the Franklin Avenue M. E. church will meet this evening at the home of Mrs. Groves Wyatt, 1709 Timmonds avenue. A full attendance is urged.

Miss Anna Glockner, who has been ill with a threatened attack of pneumonia at her home on Second street, is improving.

At an enthusiastic meeting of the Henry Graham Council for the Recognition of the Irish Republic was held in the basement of the Library last evening. It was decided to continue the local council until Ireland gains her Republic. Miss Beulah Donahue gave a splendid report of the state convention held in Columbus February 12th, which showed that the Ohio delegates were also in favor of continuing the work of the various councils in the state until Ireland gets her freedom.

Mr. Thomas G. O'Keefe was elected director of the state directorate, and will attend the convention to elect a state secretary, which will probably be held the middle of this month in Columbus. It was also decided to meet the last Wednesday in each month.

After the business meeting a delightful program was presented. Miss Helen Duerr gave several enjoyable readings. Mrs. Lydia Rowe recited two humorous colored selections, "The Colored Wedding" and "The Gratification (Graduation) Class." Mrs. W. L. Creasy also contributed two delightful readings "The Sailor's Romance" and "A Backwoods Wedding."

Mrs. Samuel Horchow, who presided as chairman of the evening, read an interesting selection from Mark Twain.

Mrs. Eustace Stephens has returned from a few days' visit in Cincinnati.

The home of Mr. and Mrs. Francis Anderson of Newton was the scene of a merry gathering last evening in honor of the birthday anniversary of their daughter, Cora Anderson. Games and piano music were the features of the evening and later refreshments of ice cream and cake were served to Misses Violet Smith, Garnet Holt, Beatrice Browning, Gay and Noel Gladys Nae, Hazel Anderson, Sophia Stamp, Dorothy Evans, Rose Jennings, Katherine Gordon, Marie Appleton, Esther Walker and Cora Anderson.

Misses George Stamp, Pearl Mitchell, Raymond Goodwin, Charles Cook, Thompson Evans, Lewis Hopkins, Frank Millison, Charles Mitchell, Harold Hopkins, Clayton Allen, Stanley Bodmer, Sanford Knott, Genevieve George and George Jenkins.

Mrs. A. P. Kerr of Gallipolis, Ohio, is the week end guest of Mr. and Mrs. George M. Taylor of Fourth street.

An oxen supper will be given by the ladies of the Long Run U. B. church tomorrow evening at the home of Mrs. William Zeune. Every body is invited.

Coming After
A. L. Dempsey

A. L. Dempsey, who was arrested Wednesday morning by county officers of Williamson, W. Va., on a non-support charge will probably be released there today. A. C. Paxon, sheriff of Williamson, wired Sheriff Brown last night that he would send Dempsey after his release.

Founder Of
Telephone
75 Years Old

WASHINGTON, D. C., March 3.—(By the Associated Press).—Telephone companies, their officials say, have two special kinds of vanities to deal with among subscribers. One is possessed by those who desire special distinctive numbers and the other by those who wish their names to appear just so-and-so in the directory.

The National Geographic Society, which has been digressing a bit from its accustomed paths to study the subject, has found, however, that Alexander Graham Bell, the inventor of the telephone, who today celebrated his seventy-fifth birthday, possesses neither of these vanities. To prove it, the geographic society points out that the father of the telephone appears thus in the Washington telephone directory:

"Bell, A. Graham (residence), 1321 Conn. ave., Franklin 58."
The geographic society in connection with Dr. Bell's birthday also is authority for the statement that the aged inventor, who still works in his laboratory daily, often until three or four o'clock in the morning, ascertains modestly the other day to a group of officials of the United States patent office: "I rather think that you know more about the telephone today than I do."

He then called attention to the more than 8,000 patents relating to telephones since he obtained the original patents in 1876.

THEATRICAL

Chicken Night At Sun
Babette's Knicker Knacks proved all they announced when the presented "The Golden Nugget." It gave the company a chance to display talent in the east. Every character was well played. The part of Liza by Miss Correll and she was equal to the task. Hazel Weston one of the stars of the Knicker Knacks handled the part of "The Golden Nugget" to perfection. Miss Weston is becoming a favorite with Portsmouth audiences, as is also Ed Lucas who played the drunk last night and judging from the way he portrayed the part he has had wide experience in the drinking line. The company as a whole is one of the best that has been here in Portsmouth this season. They have announced that they would play the four act drama with musical specialties the last three days of next week "The Convicts Daughter."
Tonight is Chicken Night and a crate of chickens will be given away. You might get one. Another jar of money will be given next Wednesday night. Thursday will be Auction Night. This is a novelty you don't want to miss. The management has promised something doing all week. Come early to get a good seat. See a feature picture and a big show all for one price. days. The movement, turning slowly from his right to the left side, followed a visit of his sister, in which she pleaded with her brother to open his eyes, recognize her and make a farewell statement for his aged parents. Doctors watched Church intently as his sister knelt beside him, embraced and kissed him, for some indication that he was shamming.
Church's slow, even breathing and steady pulse beat was unchanged, however, and the doctors reiterated expressions of opinion that the transformation during his five weeks' hunger strike had resulted in complete loss of mental and physical control and that his mind probably has ceased to function.
Church's crime was the murder of Bernard J. Daugherty and Carl A. Aune, automobile salesmen, from whom he had indicated he intended to purchase a high priced motor car. The men were lured to the Church home, taken singly to the basement, handcuffed and beaten to death with a baseball bat and hand axe. Daugherty's body was thrown into the Desplaines river and Aune's, while yet alive, was hurled in the Church garage, his neck being broken, according to Church's confession, when he stamped on the board, bent, body to force it into a shallow hole hurriedly scooped out.

Captain Keyes To Lead Grotto Patrol

The members of Yeazell's Grotto are jubilant over the fact that Capt. W. J. Keyes has definitely decided to take charge of the patrol.

This announcement was made at a meeting of the patrol last evening and was received with a great deal of enthusiasm. With Captain Keyes at the helm the patrol promises to be one of the most valuable assets to the Grotto. Those who attend practice last evening went through the maneuvers with considerable skill and the patrol will have all the hard-earned steps down pat in time for the Spring Ceremonial, which is to be held at the Sun Theater building on Wednesday afternoon and night, March 23.

All those who desire to link up with the Patrol are requested to be present at the smoker next Thursday evening at 7:30, sharp. Captain Keyes will be on hand, ready to do all he can to make the patrol one of the best drilled and most skilled in the country. The committee in charge of the patrol is composed of W. A. Schlichter, Howard Mackey and Theron Matthews.

British Premier Carrying Resignation Around In His Pocket; Time Limit March 8

LONDON, March 3.—(By the Associated Press)—Wednesday, March 8, is the date set by Prime Minister Lloyd George for fulfillment of his ultimatum to Austen Chamberlain, according to a report in parliamentary circles. If by then he has not received satisfactory assurances of the loyal support of the coalition conservatives, it is said, he will present to the king his resignation of the premiership, which he is now figuratively carrying in his pocket.

No Solicitation In Sight

Private meetings of the politicians yesterday led to no announcement of developments tending toward a solution of the crisis. One of them, indeed, hardened the opposition of the "die hard" conservatives to Lloyd George's leadership.

Need To Reassert Principles

This meeting was held in a com-

mittee room of the house of commons, where more than eighty conservative members of the commons and the house of lords adopted a resolution affirming that "in order to restore confidence throughout the country, and with a view to the approaching general election, there is urgent need for re-assertion of the conservative and unionist principles."

The meeting is reported further to have decided that the utmost shall be done to hasten the formation of a conservative-unionist government.

To Stand By Premier

The determination of Mr. Chamberlain, Lord Chancellor Birkenhead, and other conservative leaders to stand by Mr. Lloyd George is unshaken, and the steps they will take in an attempt to bring their fol-

Argentina Not For It

BUENOS AIRES, March 3.—(By the Associated Press)—The foreign office authorizes the statement that Argentina has taken no steps looking to participation in the Geneva economic conference, and has no intention of doing so.

A Paris dispatch on Wednesday stated that French official circles had indicated they were much in favor of the participation by Argentina and Brazil in the Geneva conference, because of their importance as commercial nations. No request for an invitation, however, had been received from either.

Go-Carts and Strollers

Carriage Should Fit Baby

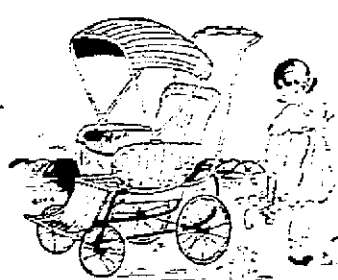

It is neither healthy nor proper for Baby to be brought up in one carriage. Health experts have agreed that the Baby Carriage must fit the form of Baby if it is to get the greatest amount of healthy comfort therefrom.

We have therefore arranged our supply of Carriages to enable us to fit the vehicle to the individual Baby—in other words—we are selling "custom-made" not ready-made Baby Carriages.

An Infant Carriage

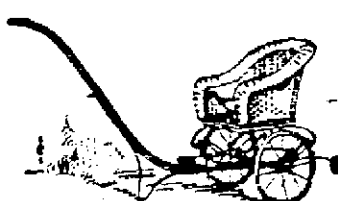

is built on spacious lines: it gives Baby plenty room to grow, it is soft cushioned, attractively painted; it has a reclining back, flexible and easy springs, ball bearing, rubber tired wheels, a reversible running gear and full iron tubing handles—It is built for solid comfort—no jar—no discomfort.

The Pullan Stroller

(For Baby One Year Or Older)

The Stroller in its many varieties is made just as comfortable as the large carriage, only it is built on lighter and smaller lines and has an adjustable foot part to allow Baby to sit up straight and to enjoy the carriage when awake.

The Baby Pusher

is in fact a lightly built Stroller, designed mostly for sitting position and intended for children of three years old who are doing quite a good deal of walking, but want to rest up and ride on occasions.

He has, however, apparently recovered from the shock of being beaten out by the Giants last season, after leading the league for several months, and he is facing the new campaign with his usual courage. He said that his pitchers and catchers will do very little baseball work while at West Baden, but will simply try to get into perfect physical condition and be ready for the real grind after leaving there.

THE BANQUET TO MR. McFARLAND

THE dinner tendered Mr. A. J. McFarland Thursday night by the Portsmouth Chamber of Commerce, was not only a fine appreciation of a capable, efficient and honorable gentleman, a man who has represented the best interests of his great company and has also taken his share in the civic life of this community, but it also expressed the cordial relationship existing between the people of Portsmouth and the Wheeling Steel Corporation. Our people have watched with sympathetic admiration the development of the great plant at New Boston, and the general personnel of the company officials has been of such a high standard and character that we have all come to feel a genuine and unselfish interest in the growth and prosperity of the industry.

We were glad of the opportunity to show Mr. McFarland of the high esteem in which he was held here, and we were also glad of the opportunity to show the Wheeling Steel Corporation, and its subsidiary company, the Whitaker-Glessner Company, that Portsmouth appreciates them and their efforts, and stands ready at any time to lend encouragement to their enterprise.

The Times extends to Mr. McFarland its personal felicitations and good wishes. We trust his pathway will continue along the pleasant and successful lines to which his unfailing courtesy and splendid ability entitle him.

S. O. S. "GET OFF THAT WAVE"

SECRETARY of Commerce Hoover, is discussing the plan of the government for radio regulation in using the wireless telegraph and telephone, said that the air chatter of the amateur operator was interfering greatly with the more important messages of the government and other agencies. Wireless telephony has developed so rapidly within a few months and offers such possibilities that it will be necessary, in the opinion of Secretary Hoover and other government officials to adopt some regulations that will prevent damaging congestion in the air.

The old idea that air was the one thing which man could claim as free appears to be losing its force under the ingenuity of inventors in developing the utilization of ether for transmission purposes. So important has this matter become to Secretary Hoover that he has decided to call a conference of radio experts of the various government departments to discuss ways and means of making use of the air with the least interference of different interests and to the general advantage of the radio service.

HOOVER TELLS THEM

HERBERT HOOVER has a whole-souled, energetic way of "telling it" to persons who find fault with his activities that commands him to his fellow countrymen. On a certain historic occasion he told a couple of distinguished German officials just where they could go, with his compliments, when they were displeased with his efforts in behalf of Belgium relief, and now he is engaged in a verbal, passage-at-arms with the Bolshevik critics of American relief agencies in Russia.

It was certainly the most ridiculous of charges that in seeking to help the starving people of Russia, American agents were also trying to get a political grip on the country. It will be generally conceded that when it comes to organized relief measures Mr. Hoover is our foremost authority. His sole concern is efficiency in administering aid. He is also intensely desirous that others shall be similarly sincere with a single purpose. Unfortunately he has not been able to convince himself that this is the case with certain organizations in this country formed for the ostensible sole purpose of helping poor Russia. He finds that they are tainted with communism and engaged in propaganda that is doing our country no good.

The American relief commission consists of "100 untrained citizens". The Bolshevik army, according to latest accounts, has 1,600,000 soldiers. It is the largest standing force in Europe. As Mr. Hoover says, our representatives in Russia are too busy trying to save the starving to have any time for revolutionary activities. America's altruism has never yet been successfully called into question. We have but one purpose in our charitable enterprises in foreign lands. Can our critics say as much for themselves?

TO STIMULATE TRAVEL

ENDORSED by President Harding and with Matilda Francis Egan, former United States minister to Denmark, as chairman of the committee on arrangements, "Travel Week" will be observed from March 25 to April 1. There will be a travel exposition in New York, with prominent exhibits by the steamship lines, railroads and tourist bureaus. The United States and foreign governments will participate by directing attention to the national parks and other resources. The probable people will point out the advantages of travel by that mode. An attempt will be made to arouse more enthusiasm for good roads. Several western states will join in promoting a "See America First" movement. Through public lectures, the newspaper advertising and contests, with American and foreign tours as prizes, the sponsors for "Travel Week" will endeavor to induce the people to make more journeys.

There are hundreds of the sons of Americans who have to be prodded to travel. They visit interesting places in the United States and other countries. However they have sufficient time and money at their disposal. There is no need to tell them of the educational and recreational benefits that can be gained from travel. And there are many Americans whose journeys are of little benefit to them because they are not interested in or do not appreciate what they see. You will find passengers on trains passing through the Rocky mountains who are busy with or read trashy magazines instead of enjoying the scenery of the country. For those who desire to travel for the sake of the trip and money there is consolation in the fact that the same homes and magazines dealing with the interesting world of travel. While intimate knowledge of a country is not gained by passing through literature and lecture is not to be denied.

Suspenseful and a thing of the past, the old-time travel boys still have a lot to say.

Some men have to be prodded to travel. They are afflicted with dry throats.

Even the man who does not travel is not satisfied with those at railroad crossings.

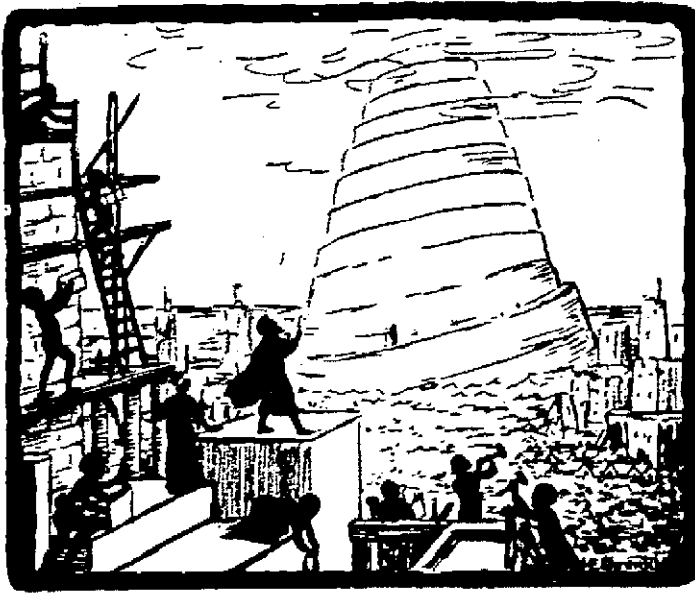

If the statesmen don't like the Green Bay, they try Alton, Carlo. There's no limit there.

THE BIBLE IN PICTURES AND TEXT

By HELEN E. OHRENSCHALL

THE TOWER OF BABEL

FOR a long time there was only one language. As mankind increased in numbers they settled in a plain and said: "Let's build a city and tower whose top may reach unto Heaven, lest we be scattered."

But God confounded their language so they could not understand each other and scattered them upon the face of the earth. So they left off the building of the city which was called Babel or confusion.

New York-Day-By-Day

BY O. O. MCINTYRE

NEW YORK, March 3.—Thoughts while strolling around New York: Evening church bells. The hour for self communion—and a city rushes madly to its pleasures. A tattoo parlor with an electric sign. Maidens symbolic of Acanthian innocence. Sleek, outre cosmopolites. Stragglers with the furthestness that comes at night.

Lead white sheets in a thousand cinema palaces begin to mirror the zodiac of thrills. And out in Hollywood the heroes and heroines are riding hard in the hills. With the short in close pursuit. Hope they don't find Jackie Coogan has a past.

Italian bake shops. Cakes with Lombard frosting, carved and colored like polychrome plastic ornaments. Caruso used to make a meal of them. Gleaming white skyscrapers stretched against the opalescent sky. And the windows popping with light like a huge set piece of fire works. Evelyn Nesbit's tea room deserted. A Persian cat sleeps in the window. A horse drawn prairie schooner—advertising something or other. Eddie Rickenbacker, the speed demon. But he cannot cross a New York street in a hurry. Recreating station in front of a dance hall. Jobless reclining on subway stairs to keep warm.

Ben Ali Haggis. A dilettante in art. And a snappy dresser. Actors with care lined faces. Not a sign of rain and yet that fellow carries a raincoat and umbrella. But he makes his own sulky dressing. Or maybe he's the weather forecaster who has just predicted fair weather. Gaunt old men mounting the library steps. Suburbanites hurrying to the S. B. I'd like to be spinning yarns by the swinging cabin light—say in the Mediterranean. Instead I'll mount a high stool in this quick lunch end have a out of cherry pie.

She is one of a dancing team—who duplicated a certain Terpsichorean success on Broadway in Paris for the last year. She recently arrived in the states and was giving a tea. She called up a well known Park Row journalist to invite him. "Come up to my house this afternoon," she said, "I want to tell you what I joined in Yurupp."

A New York writer who has a knack of plotting good fiction stories but is unable to write them to suit the editors has opened up an office in the Thirties and is furnishing plots to writers who have gone stale on plotting. He makes a fixed charge of \$75 for the plot and whether or not the completed story

sells does not enter into the transaction.

Three years ago Joe, a curly haired Greek boy, had a hole in the wall in our street where he sold oranges and bananas. He slept and ate there and seemed to be open both day and night. A year ago he took one side of a delicatessen store and this week he is moving into a building whose rental for his store is \$11,000 a year. He now has six clerks and a complete line of groceries and fruits. In the three years he has mastered the English language and brought his parents from Greece. He has never been to a movie or any other kind of entertainment. Yet his success has been costly. Due to his undernourishment and exposure he has developed a lingering malady. When his store is in running order he is going to Arizona to live in a tent for a year.
